RECENT PATENTS—

Treatment of excreta for the production of fertilizing substances—Manufacture of coloring matter from naphthalamine—Acid tannate of chinoline..... 51

Moistening oleoaginous seeds and meal for extracting the oil therefrom—Gasoline furnace—Bottle-stopper—Bottle-stopper and fastener—Compound oil.. 62

Process of separating caustic alkali from gluten—Obtaining dextrine and saccharine matter from grains... ..... 162

Manner of setting retorts for treating sulphuric acid—Device for expressing stearic acid—Bottle-stopper—Bottle-stopper—Oil press envelope—Bottle-stopper—Manufacture of coloring matter from naphthalamine—Freezing paraffine and other petroleum products—Inhaler—Oil press—Manufacture of blue and violet coloring matters..... 218

Production of soluble alizarine-blue—Perforated bottle packing—Manufacture of brown dyestuffs—Manufacture of brown dyestuff..... 274

Apparatus for storing, measuring and drawing oils—Apparatus for dry destructive distillation — Bottle-stopper—Bottle-stopper—Oil pump — Apparatus for reclaiming soda from spent liquors of pulp mill digesters..... 374

Manufacture of an aniline color—Manufacture of dyestuff—Manufacture of soap—Medicinal compound—Manufacture of artificial indigo ..... 429

Bottle-stopper—Apparatus for manufacturing candles—Apparatus for manufacturing soda by the ammonia process—Bottling machine—Bottle-stopper—Distillation of glycerine and apparatus connected therewith—Machinery for bevelling glass—Mordant—Furnace for melting glass..... 497

Machine for hulling cottonseed..... 498

Manufacture of blue coloring matter called "Indigophenols"—Oil cabinet—Manufacture of fertilizers—Device for controlling and regulating the flow of oil wells—Manufacture of blue coloring matters..... 553

Bottle-stopper — Manufacture of tannic acid—Manufacture of soda—Wood distilling apparatus—Alcohol still—Manufacture of ammonia and bone black—Bone black dryer—Lubricant—Manufacturing starch—Manufacture of dyestuff from alizarine—Alizarine blue color—Manufacture of soda by the ammonia process—Manufacture of saccharine compounds—Grape sugar compound..... 609

Method of manufacturing grape sugar—Soda block..... 610

Pigment for distemper painting—Manufacture of glucose or grape sugar—Automatic cut-off for bone black kilns.... 666

Mould for forming blocks of soda—Removing iron from ferruginous solutions—Process of removing iron and manganese from certain solutions..... 722

Baking powder—Baking powder—Paint burner—Alcohol still—Distilling apparatus—Bicarbonate of soda—Bicarbonate of soda—Paint—Medicine spoon—Making bottle wrappers—Process and apparatus for distilling petroleum—Process and apparatus for concentrating sulphuric acid..... 832

Apparatus for extracting oil by means of a solvent—Adapting oil wells to flow without tubing above the packing—Apparatus for expressing malt extracts from the husks of brewer's mash—Hog cholera remedy—Pump rod adjuster for oil wells..... 878

Manufacture of glucose from cactus—Bottle stopper and draft nozzle—Oil press mat—Oil press and oil press box—Percolator for rosin—Medical compound for rhumatism..... 990

Bottle-stopper—Oil well packer—Rectifying alcohol..... 1008

Bottling machine—Collyrium — Lantern oil—Coloring matter or dyestuff—Apparatus for distilling turpentine and for the purification of the crude products of distillation thereof—The recovery of soda—Varnish for furniture and other articles—Paint — Dextrine, glucose and grape sugar—Alum—Distilling alcohol ..... 1153

Furnace for melting glues—Bottle washing machine—Concentrating sulphuric acid—Bottle-stopper ..... 1156

Manufacture of ammonia and animal charcoal—Manufacture of binoxides of barium and calcium—Oil cup—Bottle-stopper — Cough remedy — Separating wax from paraffine oil—Extracting glycerine from fatty matter—Collyrium—Disinfectant ..... 1213

Preventing the escape of gas from oil wells between the flows of oil—Distillation and purification of alcohol—Safety attachment for oil wells and tanks—Coloring matter—Water lac varnish—Improving the fire test of oils—Roof paint—Coloring matter—The same—The same—Production of methyliquinoline—Lubricating compound — Manufacture of glucose..... 1344

Apparatus for making soap—Medicinal compound—The same—Medical inhaler 1381

Manufacture of compounds of pyroxyline or nitro-cellulose—Production and dehydration of sulphurous oxides and apparatus therefor—Manufacture of sulphuric acid—Machine for crushing cottonseed—Medicine injector—Bottle-stopper—Discharge apparatus for coolers of bone-black kilns—Manufacture of coloring matter—Compounds of pyroxyline or notro-cellulose—Liquid soap..... 1456
